COMMERCIAL SETTINGS.

Why Deco Plaster?

ECO FRIENDLY

What if I told you that not only is lime plaster beautiful, but it is also natural, eco green, healthy, and will last as long as your walls. Well it is all that. Lime plaster is limestone that has been turned into a paste like material and once it dries on your walls it becomes limestone again.

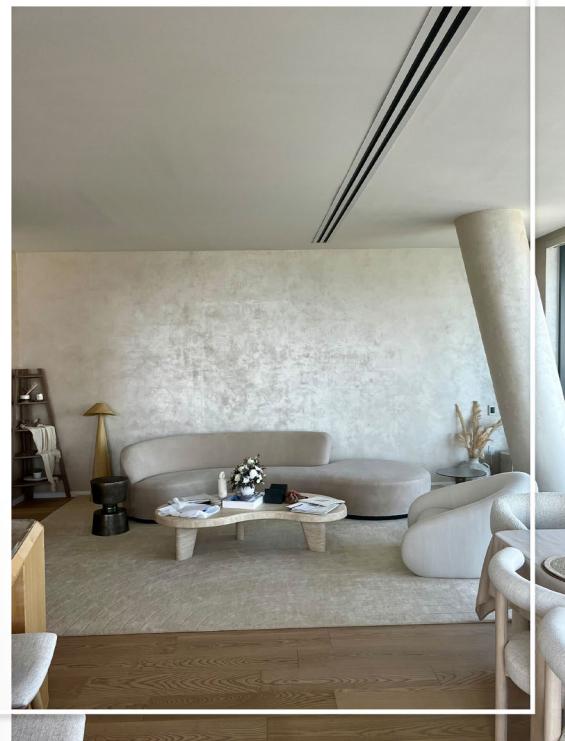

You can not get a more natural hand applied finish on your walls than that.

PEARL SILK DECOR PLASTER

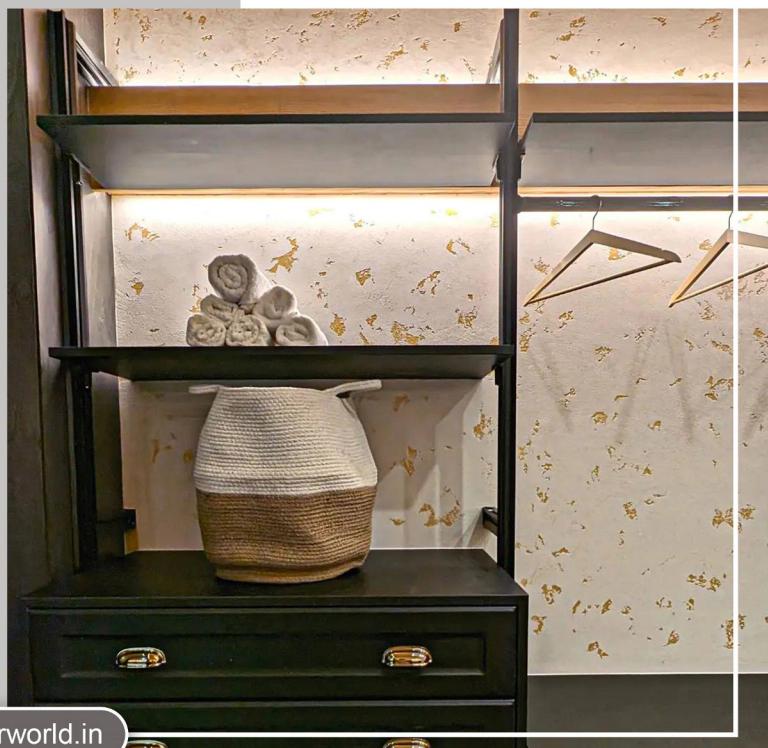

A finish that's nothing short of sheer elegance. A pearlescent product composed of crushed silver and gold, the finish is well complemented with a warm grazing light. The finish can be achieved with brush and swirl effects.

Lime plaster adds a natural texture that exudes authenticity and brings rusticity, brightness and warmth to a room.

Made with ecological ingredients, it helps create a healthy environment in your home.

PEARL SILK DECO PLASTER

Description

Pearl Silk is a high quality decorative coating based on acrylic copolymers in aqueous emulsion and special additives. It can be applied with a brush, spatula or trowel, each providing a unique texture and finish, along with subtle tonal variations to the coating.

Application Field: Interior

Distressed DECO PLASTER

STUCCO DECOPLASTER

STUCCO DECOR PLASTER

Description

The Stucco finish reflects pure luxury. It dates back to the Egyptians, Romans and Venetians, where it was traditionally applied and polished with hot irons. It's certainly one of the most intriguing textures with the highest sheen. Applied in numerous fine layers and then trowel polished to a glassy surface, it possesses remarkable depth and sheen.

Application Field: Interior

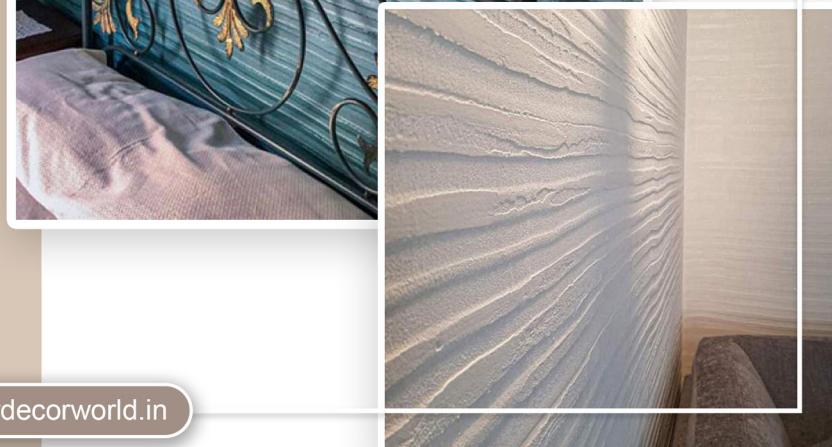

BAMBOO

DECOR PLASTER

Description

Bamboo is created from Istinto product (lime and selected Carrara Marble) tinted in your chosen colour and then finished to your liking from natural (Cera Del Vecchio beeswax) to iridescent finish (Gioia, Oro. It creates the look of bamboo while adding texture to the walls to suit the latest Japanese/Asian architectural influenced trends. Great for feature walls in master bedrooms, alfresco areas and living areas

MICROTOPPING DECO PLASTER

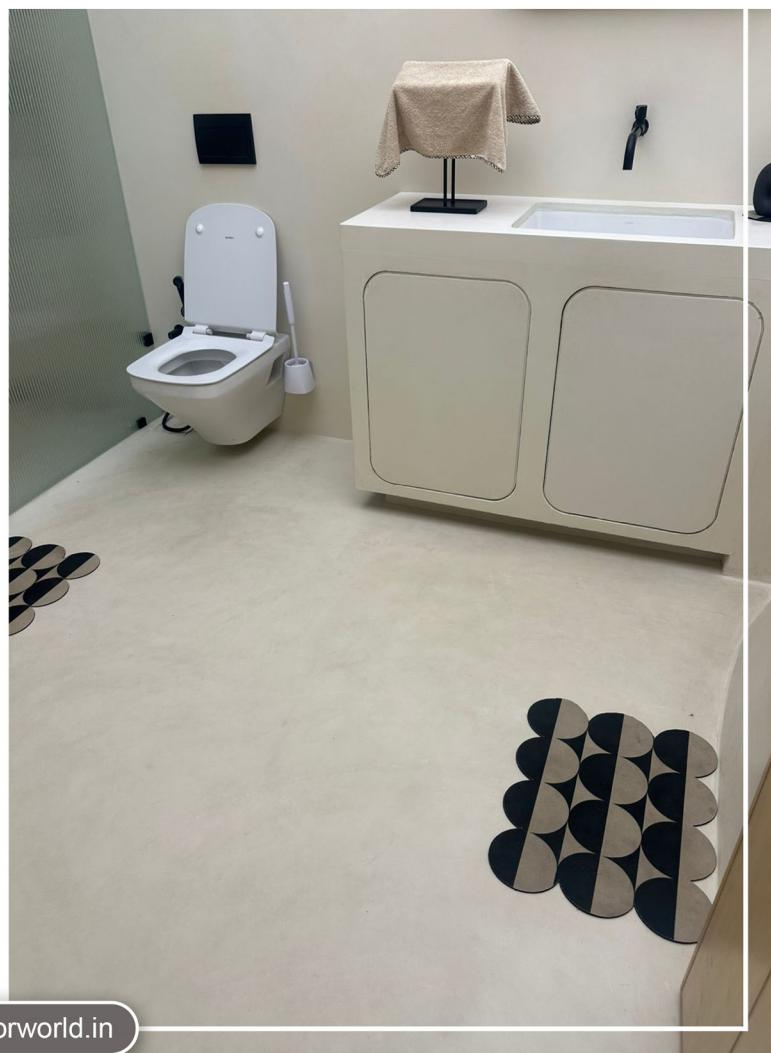

Nature is two-Component lime based microcement that stands out for its handcraft and material aesthetics. A thin continuous coating for floors and walls with superior mechanical resistance and workability.

Microcement is a decorative coating composed of cement, water-base resins, additives and mineral pigments that can be applied on a multitude of vertical and horizontal surfaces thanks to its great adhererence.

MICROTOPPING DECOR PLASTER

Deco Plaster offers you a wide range of possibilities and decorative finishes, where you set the limit. Give rooms a unique and personal character thanks to the different textures – thick medium or thin, the wide variety of microcement colours, and the different finishes that our vanishes and metallic coatings allow. A continuous cladding that can be applied on floors, walls, stairs, ceilings, swimming pools, and even furniture.

Used in plenty of applications
(floors, walls, furniture, bathrooms, kitchens – indoors and outdoors)
Highly aesthetic, customized finish through
the wide range of colors, effects and textures

Deco Terrazzo

This bi-component mixture forms a smooth paste, versatile enough to be combined with nearly any type of aggregate, including marble or glass. Unlike any other regular cement, the natural binder in our terrazzo doesn't shrink. Instead, it expands by approximately 0.2 - 0.3% as it cures, and offers impressive flexibility. These traits prevent the risk of cracking, even when applied in very thick layers. Once dried, it reveals an authentic, natural look with an ivory hue. The material can be tinted with colour pastes, marble powders and aggregates to match the desired shade.

Deco Terrazzo

The two-component product is made from an innovative mineral binder naturally found in nature, and results in a smooth paste that is highly adaptable and can be mixed with various aggregates, such as marble or glass. The dried material has an authentic, natural appearance. The base has a white colour with an ivory hue and can be tinted with colourant pigments or marble powders to achieve the desired shade.

Deco Plaster serves architects and designers around the world. We have thousands of samples to choose from and can create infinite customizations and combinations for all your projects. Our endless palette of colors and textures designed for durability will inspire tranquility with a classic, elegant look or a bold, dynamic effect with modern flair. Whatever you desire, Deco Plaster offers a vast new aesthetic to explore.
